

Sew From The Heart Student Supply List

Class: Digitizing for Beginners **Class #:** 9912
Teacher: Sarah Vedeler **Email:** sarah@sarahvedeler.com
Date: Saturday June 13, 2009 **Time:** 10am-4:30pm

Description: If you are new to digitizing and want to learn how to create spectacular embroidery designs, then this series of classes is for you. Join Sarah and have fun with:

Outline Stitches.

Using some very simple and basic shapes, learn how to use outline stitches to create beautiful results. We will experiment with all 9 of the outline stitches available, and will learn how to change the default options to create the look that you desire. Create even more stunning results by combining 2 outline stitches to the same shape.

Fill Stitches.

Still using some very simple and basic shapes, learn how to use fill stitches to create beautiful results. We will focus on Blackwork fill, Candlewicking fill, Lacework and Pattern fill, learning how to change the default options to create the look that you desire. And it's also possible to combine 2 fill stitches to the same shape for stunning effect.

Combining Outlines and Fills with Closed Curves.

Now that you are feeling more comfortable with outlines and fills, let's create some more advanced shapes using the closed curve tool. Learn how to import a picture, trace it with the closed curve tool, and combine outline and fill stitches on the same shape.

Thread Colors and Holes!

The default thread colors are OK, but we can do better than that! Learn how to create a thread palette for designs that are pleasing to the eye. Then let's play with the hole making cookie cutter to add pizzazz to your shapes. The open curve tool comes in handy too for a spot of embellishment.

Lunch!

This is a 6 hour class – we will be taking a 30 minute lunch break. Please bring lunch with you, as there will not be enough time to go out to eat.
